

**10/512059**  
DT01 Rec'd PCT/PTC 21 OCT 2004

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**LISTING OF CLAIMS:**

1. (Currently Amended) A pesticidal composition comprising:
  - a) one or more protein autolysates derived from yeasts,
  - b) one or more synthetic silicic acids, and
  - c) one or more active compounds directed against animal pests.
2. (Currently Amended) A pesticidal composition as claimed in claim 1, wherein the protein autolysates are derived from yeasts of the genera *Saccharomyces* and *Schizosaccharomyces*.
3. (Currently Amended) A pesticidal composition as claimed in claim 1 ~~or 2~~, wherein the synthetic silicic acids are ~~derived from the groups~~ one or more members selected from the group consisting of pyrogenic silicic acids and precipitated silicic acids.
4. (Canceled)
5. (Currently Amended) A pesticidal composition as claimed in ~~claim 4~~ claim 1, wherein component c) is an insecticide.

6.-8. (Canceled)

9. (Currently Amended) A method for luring and controlling animal pests, ~~comprises~~ comprising bringing a composition as claimed in ~~one or more of claims 1 to 5~~ claim 1 into contact with the animal pests.
10. (Currently Amended) The method as claimed in claim 9, wherein the composition is applied onto, or in the vicinity of, the plants, or their seeds, which are infested with the animal pests ~~and~~ or in the substrates, areas or spaces colonized by them.
11. (New) A pesticidal composition as claimed in claim 2, wherein the synthetic silicic acids are one or more members selected from the group consisting of pyrogenic silicic acids and precipitated silicic acids.
12. (New) A pesticidal composition as claimed in claim 2, wherein component c) is an insecticide.
13. (New) A pesticidal composition as claimed in claim 3, wherein component c) is an insecticide.
14. (New) A pesticidal composition as claimed in claim 11, wherein component c) is an insecticide.

15. (New) The method as claimed in claim 9, wherein the animal pests are arthropods.
16. (New) The method as claimed in claim 15, wherein the arthropods are synanthropic flies.
17. (New) A method for luring and controlling animal pests, comprising bringing a composition as claimed in claim 2 into contact with the animal pests.
18. (New) The method as claimed in claim 17, wherein the animal pests are arthropods.
19. (New) The method as claimed in claim 18, wherein the arthropods are synanthropic flies.
20. (New) A method for luring and controlling animal pests, comprising bringing a composition as claimed in claim 3 into contact with the animal pests.
21. (New) The method according to claim 20, wherein the animal pests are arthropods.
22. (New) The method according to claim 21, wherein the arthropods are synanthropic flies.

23. (New) A method for luring and controlling animal pests, comprising bringing a composition as claimed in claim 5 into contact with the animal pests.
24. (New) A method as claimed in claim 23, wherein the animal pests are arthropods.
25. (New) A method as claimed in claim 24, wherein the arthropods are synanthropic flies.
26. (New) The method as claimed in claim 10, wherein the animal pests are arthropods.
27. (New) The method as claimed in claim 26, wherein the arthropods are synanthropic flies.
28. (New) The method as claimed in claim 17, wherein the composition is applied onto, or in the vicinity of, the plants, or their seeds, which are infested with the animal pests or in the substrates, areas or spaces colonized by them.
29. (New) The method as claimed in claim 28, wherein the animal pests are arthropods.
30. (New) The method as claimed in claim 29, wherein the arthropods are synanthropic flies.

31. (New) The method as claimed in claim 20, wherein the composition is applied onto, or in the vicinity of, the plants, or their seeds, which are infested with the animal pests or in the substrates, areas or spaces colonized by them.
32. (New) The method as claimed in claim 31, wherein the animal pests are arthropods.
33. (New) The method as claimed in claim 32, wherein the arthropods are synanthropic flies.
34. (New) The method as claimed in claim 23, wherein the composition is applied onto, or in the vicinity of, the plants, or their seeds, which are infested with the animal pests or in the substrates, areas or spaces colonized by them.
35. (New) The method as claimed in claim 34, wherein the animal pests are arthropods.
36. (New) The method as claimed in claim 35, wherein the arthropods are synanthropic flies.
